# Press Release

**For Immediate Release**

## **Stay Supported this Festive Season**

When heading away for a summer break it is normal to be concerned about the wellbeing and safety of older family member who are not able to join in on the trip.

Tunstall Healthcare, the world's leading provider of telehealthcare has a daily welfare call service that involves Tunstall's response team checking to make sure your loved one is ok.

The daily call service also ensures that your loved one is not left feeling lonely and isolated, and that there is someone to call each day, while you might be out of contact, and say "hello" and "how are you today".

The daily welfare call will be made at the time that you choose and can also be used to make sure your loved one has taken their medication and are feeling ok.

Daily welfare calls are well suited to people who don't have family and friends to call on them, particularly those that are frightened that they are alone with no one to check on them.

If the resident can not be reached, Tunstall Response will follow a strict protocol to ensure the resident is checked on and ok.

Daily welfare calls are an add on service to Tunstall's 24 hour response service; a service that allows your loved one to make quick and easy contact with a response operator, so that in an emergency they can get the help they need.

This might be for a friend to be contacted, ambulance to be summoned or an after hours GP to assist.

Making contact with the response centre is as easy as pressing a button that your loved one keeps with them at all times when in the home.

With Tunstall Healthcare you can feel confident that your loved one will be safe and secure while you are away, able to get help if and when they need it and have someone on the phone to say Merry Christmas on Christmas day.

If you would like to find out more about using Tunstall's response service this festive season visit [www.tunstallhealthcare.com.au](http://www.tunstallhealthcare.com.au) or call 1300 760 333.
