## press release

### For Immediate Release

#### **Title: Feros Care Gives the Gift of Life**

On Wednesday 10 December, Coolangatta based aged care and community service provider Feros Care opened their new premises and launched the new LifeLink alarm service.

Already providing great services to the community, Feros Care recently won the Aged and Community Services NSW & ACT Industry Technology Award, Information Technology in Aged Care (ITAC) Award, and Community Services Australia Awards for Excellence.

Adding to their technology focus, Feros Care's LifeLink alarms provide a 24 hour emergency response service that gives seniors who are living alone peace of mind that assistance is available at the press of a button, if and when they need it.

The service has already been a great success and Feros Care is also starting to trial assistive monitoring devices to assist seniors with dementia to remain living independent and safe at home.

Feros Care's Lifelink alarms are provided and supported by Tunstall Healthcare, the world's leading provider of telehealthcare.

Tunstall's managing director, Stanley Ng is proud to support organisation like Feros Care who share Tunstall's philosophy of protecting, supporting and caring for people with special or ongoing needs.

To find out more about Tunstall's telehealthcare solutions visit [www.tunstallhealthcare.com.au](http://www.tunstallhealthcare.com.au) or call 1300 760 333.

Ends
