## press release

### For Immediate Release

#### **Title: Healthcare Solution Tunstall's Goal**

The world's leading provider of telehealthcare announces their new name, Tunstall Healthcare.

The addition of Healthcare to Tunstall's name aims to reflect the company's shift towards complete telehealthcare and assistive technology solutions.

Operating in over 30 countries around the world and supporting more than 2.5 million people, Tunstall Healthcare continues to endorse telehealthcare as the solution many countries can embrace.

Telehealthcare is ideal for countries and communities facing the challenges of growing populations, the demands of health and social welfare, and helping people who live in remote areas.

In Australia and New Zealand Tunstall Healthcare's solutions are used by government organisations, leading community groups and retirement villages to provide older, disabled and vulnerable people with the confidence to live independently in their own home.

Tunstall Healthcare provides solutions that ensure older people and people with additional needs can always get help if and when they need it.

Tunstall Healthcare can even create customised solutions for clients with special care needs, offering peace of mind to them and their families.

To find out more about Tunstall Healthcare and telehealthcare visit [www.tunstallhealthcare.com.au](http://www.tunstallhealthcare.com.au) or call 1300 760 333.

Ends
