Press Release

For Immediate Release

Title: Arthritis Awareness Week 21-27 March

Living with arthritis does not have to mean a loss of independence.

This Arthritis Awareness Week 21-27 March, Tunstall Healthcare, the world's leading provider of telecare supports people living with arthritis.

Tunstall provides a 24 hour response service to assist people with special or ongoing needs.

By simply pressing a radio trigger button that the resident keeps with them at all times, they can make quick and easy contact with Tunstall's 24 hour response centre.

The radio trigger button can be worn around the neck as a pendant, clipped to clothing or belt, or attached to a watch.

Tunstall also offers an easy press adaptor that is ideal for people living with arthritis, as it allows the resident to apply light touch to any part of the adaptor to activate an alarm call for assistance.

When an alarm call is activated, the response operator will speak to the resident and organise appropriate assistance, such as a family member or friend to be contacted, ambulance to be called, or after hours GP to be organised.

Tunstall's 24 hour response service offers ongoing independence for people living with arthritis, knowing that help is available at the easy press of a button.

For more information about Arthritis Awareness Week visit www.arthritisaustralia.com.au.
